

## All Write Now 2024 – 2025

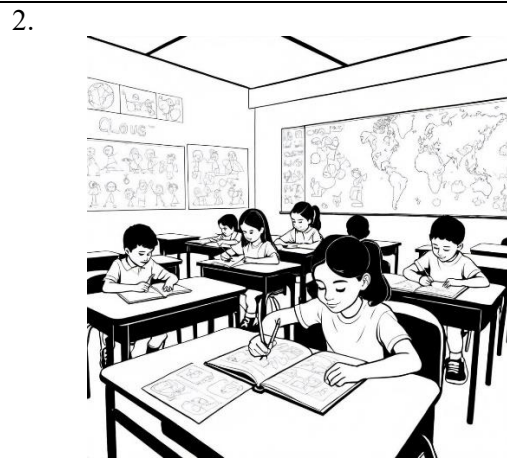

### Creative Writing

You attended a two-day Biology interest class in the AI Academy targeting Primary 6 to Secondary 1 students.

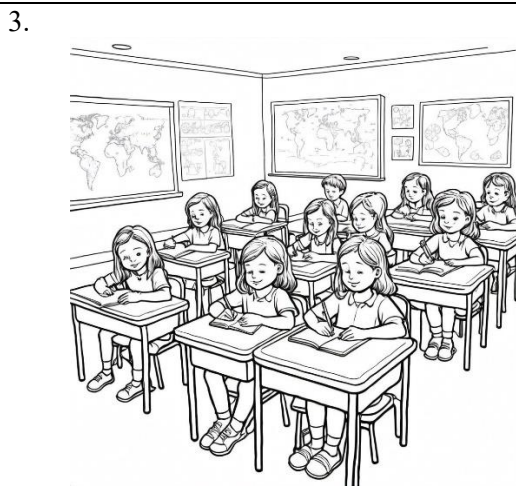

The class would teach you about cloning. There are different lesson modes: one-to-one lessons, large class lectures, and group work. On the last day, however, something strange happened in the Academy. Write a story following the pictures provided below and create an ending for the story.

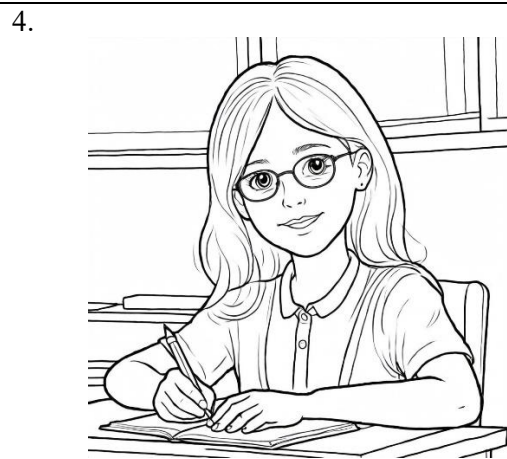

Private tutor / principles of cloning

Big class lecture / group work

Attended the next lesson / appearance / similar

The classmate sitting next to you looked like the private tutor

?
